There are 1074 map sheets that cover all of Sevier County.

Therefore, there are a total of 5370 map/themes for the entire county.

Some examples of costs under this formula:

If a developer wants all data covering one map sheet, the cost would be \$500.

If that developer wants only planimetric and topographic for that CLT map, the cost would be \$200.

If that developer wants County-wide Parcels only, the costs would be \$10,740.

The purchase of all map/themes for the entire County would costs \$26,850.

Update Pricing

Updates to purchased data will be available for up to one year at a cost of 10% of the original sale per update.
